

# EVAZE

e-mobility solutions

## The CPO & EMP platform

for the management, billing and connection of your charging infrastructure

# Offer value-added services

With EAAZE, as a provider of charging infrastructure or as an e-mobility provider, you can offer your customers real additional benefits:

✓ Integration of private wall boxes for company car billing with automated reimbursement or connection to an ERP system

✓ Unlimited charging possibilities in Europe with 300,000 charging points and the possibility of flexible price definition as EMP

✓ Operate successful business models for your own charging infrastructure or as a service provider for your clients and customers

✓ Do you need an individual solution concept? EAAZE offers a simple integration, numerous modules and diverse possibilities

## EAAZE – The solution for your requirements

Whether you act as a CPO, EMP or in both worlds: EAAZE is the platform for your business success.

### Invoicing

Your tariffs, prices, contracts – flexible, automated and profitable

### White label

Your platform, your customers, your success

### Multi-tenancy

Whether branches, locations or companies – you control access and features

### Remote maintenance

Remote configuration and firmware updates of your hardware right from your desk

### API first

An open-interface solution for easy networking of your systems

### Energy management

Optimize and visualize energy flows and loads at your locations

# Contact us!

Our experts look forward to your requirements

EAAZE offers a manufacturer-independent platform for flexible administration, controlling and billing of charging infrastructure. No matter where your business in the field of e-mobility: EAAZE is the solution for both standardized processes as well as individual requirements.

The makers of EAAZE have many years of experience in the field of e-mobility and platform solutions. A modern technology stack, scalability and API first approach are therefore the basis of the EAAZE software.

Take on e-mobility – with EAAZE!
